---

Hi

I have opted not to mention my name as I have no confidence that on a later date it will be used against me considering the social and Australian national security damage that CROWN already managed to do .

Here is my allegations towards Crown

1. Allege that crown along with Banks knowingly mismanaged daily credit limits of gamblers by enabling them to withdraw twice the daily limit on the same day .
2. This happened to me (ofcourse under influence of alcohol at the time ) multiple times
- 3 .This can be empirically verified by sampling crown ATM w/d for same accounts with more than \$1000 on the same day and cross checking with banks on the account credit limits at the time .
4. I allege that this must be considers as harm done deliberately especially if CROWN ATM systems behaved differently to that outside such as gathering initial balance and then reporting overdraft to banks

The period of such incidents were between 1998 (Bank NAB)
